It serves as a benchmark for students to identify strengths and weaknesses across various nursing domains. This predictor typically covers a broad spectrum of nursing topics, including medical-surgical nursing, maternal and child health, pharmacology, psychiatric nursing, and community health. Form A, as opposed to other versions, is often considered the baseline or the first form released in a series, offering a representative sample of the exam's scope. It provides a comprehensive set of questions, often numbering around 150-200 items, formatted to replicate the multiple-choice style of the licensure exam.

Key Features of RN Comprehensive Predictor 2019 Form A
