## Understanding the Philosophy Behind "Think Safe, Act Safe, Be Safe"

At its core, the phrase "Think Safe, Act Safe, Be Safe" encapsulates a mindset that encourages individuals to be mindful of potential hazards, make wise choices, and ultimately protect themselves and others. UC Davis Safety Services promotes this approach to foster an environment where safety is a shared responsibility, rather than solely the job of security personnel or emergency responders.

### Think Safe: Awareness and Prevention

Thinking safe means being vigilant and aware of your surroundings. This involves recognizing potential risks, such as unsafe lab practices, unfamiliar environments at night, or even simple slip hazards. UC Davis encourages everyone to stay informed about campus safety alerts and to participate in training sessions that highlight best practices. For example, by understanding fire safety protocols or knowing the locations of emergency blue light phones, students and employees can anticipate hazards before they become emergencies. This proactive mindset is the foundation of a safer campus.

### Act Safe: Making Responsible Choices

Once aware of potential risks, acting safe involves taking deliberate steps to avoid danger. This could mean following proper chemical handling procedures in research labs, using designated pedestrian pathways, or reporting suspicious activity to campus police promptly. UC Davis Safety Services often emphasizes the importance of not just individual actions, but also collective responsibility. When people act safely, they help create a protective network that benefits everyone.

### Be Safe: Cultivating a Culture of Security

# Understanding UC Davis Safety Services: A Holistic

# Approach

UC Davis Safety Services operates as the cornerstone of campus safety, integrating various departments such as Environmental Health and Safety (EH&S), Campus Police, and Emergency Management. The unifying mantra—think safe, act safe, be safe—serves both as a behavioral guideline and an educational campaign designed to empower students, faculty, and staff. The university’s safety framework is built on proactive risk management, emergency preparedness, and routine training sessions. This approach is crucial in a campus environment that spans over 5,300 acres and hosts more than 39,000 students. Implementing a consistent safety culture across such a vast and diverse population requires both strategic planning and widespread participation.

## Core Components of the Think Safe, Act Safe, Be Safe Initiative

At the heart of UC Davis's safety philosophy lies the emphasis on individual responsibility combined with institutional support:

1. **Think Safe:** Encourages awareness of potential hazards in daily activities, whether in laboratories, dormitories, or outdoor spaces.
2. **Act Safe:** Promotes the adoption of safe practices, such as proper handling of equipment, adherence to safety protocols, and reporting unsafe conditions promptly.
3. **Be Safe:** Reflects the outcome of sustained safety mindfulness, resulting in a secure campus environment where risks are minimized.

This triadic framework underscores the importance of behavioral change alongside infrastructural safety measures, ensuring that safety is embedded in the campus culture rather than treated as a set of isolated rules.

# Effectiveness of UC Davis Safety Services Programs

UC Davis safety services have demonstrated measurable success in reducing workplace injuries, enhancing emergency responsiveness, and improving overall campus security. These tools enable students and staff to quickly access safety alerts and request assistance, reinforcing the act safe and be safe principles.

## Training and Educational Outreach
