Over the years, many lists have circulated claiming to capture all Baba Vanga predictions. Below is a detailed overview of some of the most well-known prophecies attributed to her, along with an analysis of their accuracy and relevance.

1. The 9/11 Attacks and Terrorism

One of the most cited claims is Baba Vanga's prediction of the September 11, 2001, terrorist attacks in the United States. It is said that she foresaw "American brethren will fall after being attacked by the steel birds," which some interpret as a reference to the hijacked airplanes crashing into the Twin Towers. While this has become a

cornerstone of her prophetic reputation, skeptics argue that such vague imagery can be retrofitted to many events.

2. The Rise of ISIS and Middle Eastern Conflicts

Baba Vanga allegedly predicted the emergence of a militant group that would destabilize the Middle East, which followers correlate with the rise of ISIS. She reportedly warned of extremist violence spreading like wildfire, leading to global instability. This prophecy aligns with the geopolitical upheavals of the 2010s, though the exact phrasing and timeline remain ambiguous.

3. Climate Change and Natural Disasters

Another significant element in Baba Vanga's predictions concerns natural disasters and environmental changes. She foretold "water will cover large parts of the Earth," which some interpret as warnings about rising sea levels and catastrophic floods due to climate change. Additionally, there are references to earthquakes and droughts affecting major regions, reflecting contemporary concerns about environmental instability.

4. The Election of the First Black U.S. President

Baba Vanga is credited with predicting Barack Obama's presidency, referring to the "black leader who will bring change to America." This prophecy is often highlighted as one of her more accurate predictions, as it was made before the 2008 election cycle. However, the general nature of this statement leaves room for broad interpretation.

5. The COVID-19 Pandemic

In recent years, Baba Vanga's name surfaced in discussions about the COVID-19 pandemic. Some claim she predicted a global "great illness" starting in 2019 or 2020, originating from "Asia." This has been widely circulated in media narratives, although the original sources of this prophecy are disputed, and no direct, verifiable statement exists in her documented sayings.

6. Technological Advances and Space Exploration

Baba Vanga's predictions also touch on future technological breakthroughs. She allegedly foresaw humanity's expansion into space, including the colonization of Mars and the discovery of new energy sources that would transform civilization. While these

prophecies remain speculative, they reflect a hopeful vision of scientific progress.
