The Concept of Reincarnation and Children Who Remember Past Lives

What Is Reincarnation?

Reincarnation is the philosophical or religious concept that the soul or spirit, after biological death, begins a new life in a new body. This idea is prevalent in many spiritual traditions, including Hinduism, Buddhism, and certain New Age beliefs. According to these teachings, the soul's journey continues across multiple lifetimes, each providing opportunities for growth, learning, and resolution of past karma.

Children Who Have Lived Before: An Overview

Some children spontaneously recall details about their previous lives—names, places, relationships, or specific events—without prior instruction or exposure. These memories often surface in early childhood and may persist for years or fade over time. Such children are frequently called "indigo children," "star children," or simply "children with past-life memories."

Trutz Hardo’s research emphasizes that these children are often remarkably insightful, possess unusual talents, or display behaviors that seem unrelated to their current environment but make sense when viewed through the lens of past-life experiences.
