This article aims to explore the multifaceted nature of justice administration in ancient India, shedding light on its institutions, principles, procedures, and evolution over time.

Introduction to Ancient Indian Justice Systems

The legal framework was not merely a set of codified laws but a comprehensive system that emphasized righteousness, social harmony, and moral responsibility. The earliest references to justice are found in the Vedic texts, where societal order was maintained through divine sanctions and customary laws. Over centuries, these principles evolved into more formalized institutions, culminating in texts like Manusmriti, Dharmashastra, and later, the Arthashastra of Kautilya.
