# Understanding the Basics of Eroman Wish Fulfillment

Eroman’s wish fulfillment mechanic is designed to reward players with characters, costumes, and other valuable items. As with many gacha-style games, the system relies on randomness, but it incorporates features like pity counters and banners to influence drop rates.

## What is Wish Fulfillment?

Wish fulfillment in Eroman refers to the process of using in-game currency (such as gems, tickets, or specific wish tokens) to make "wishes" or pulls on various banners. These wishes can yield characters, costumes, or other game items. Features of Wish Fulfillment: Multiple Banners: Each banner focuses on specific characters or themes. Distinct Drop Rates: Vary according to banner type and pity systems. Pity System: Guarantees rare items after a set number of unsuccessful pulls to prevent complete frustration.

## Types of Wishes and Currency

Players can perform different types of wishes, each requiring specific currency: Single Wish: Usually costs fewer gems or tokens, with lower chances of rare drop. Multi-Wish (10-pull): Costlier but offers better odds, with cumulative chances to get rare characters or costumes. Event-specific Wishes: Limited-time banners with increased drop rates for featured characters/items. --

# How the Pity System Works

Understanding the pity system is critical to effective wish fulfillment.

## Standard Pity

Most banners include a pity counter: a set number of unsuccessful pulls after which players are guaranteed a featured character or item. Example: After 50 pulls without a 5-star, the next pull guarantees one. Pros: Reduces frustration. Ensures fair chances for rare items with continued spending. Cons: Can encourage excessive spending. Pity resets after a successful pull, which might delay the next guaranteed item.

## Soft and Hard Pity

Some banners incorporate "soft pity," where the chances gradually increase as you near the pity threshold, making it more probable to obtain high-rarity items. Hard Pity: Guarantees a 5-star at an exact number (e.g., 90 or 100 pulls). Soft Pity: Probability increases with each pull beyond a certain point, encouraging continued wishing.

## Best Practices with Pity System

Track your pulls meticulously. Save resources for banners with the best pity guarantees. Avoid pulling excessively on banners with low pity or poor drop rates. --

# Strategies for Effective Wish Fulfillment

Optimizing your wish fulfilling involves careful resource management and strategic timing.

## Resource Conservation

Prioritize Banner Pulls: Focus on banners featuring characters or costumes you desire the most. Save Gems and Tickets: Don’t waste resources on banners with low rates or non-essential items. Use Free Pulls Wisely: Take advantage of daily free wishes or login bonuses.

## Timing Your Wishes

Wait for Limited-Time Banners: These often feature better rates or exclusive items. Follow Game Announcements: Keep an eye on upcoming banners to plan your resource expenditure. Synchronize with Events: Events often grant additional wish tokens or bonus drop rates.

## Maximizing the Chance of Rare Items

Use multi-wish (10-pull) options, since they often have increased odds for rare drops. Take advantage of any "pity" or "soft pity" mechanics. Participate in festival or anniversary pulls, which tend to have higher drop rates and more generous pity systems. --

# Reward Types and Their Significance

Understanding what you can obtain and how valuable each reward is helps prioritize your wishing efforts.

## Characters

Featured Characters: Usually have higher rates during banners. Limited Editions: Offer rare appearances and unique abilities. Supporting Characters: Enhance team dynamics and gameplay.

## Costumes

Provide aesthetic value. Some costumes may increase character stats or provide special effects.

## Other Rewards

Gems and Tickets: Used for future wishes. Event Items: Aid in progressing through game content. Upgrade Materials: Enhance character levels and skills. --

# Common Mistakes to Avoid

Making the most of wish fulfillment also involves avoiding pitfalls.

## Over-spending

Don’t exhaust resources prematurely; plan your wish schedule. Be mindful of budgeting your gems and tickets.

## Ignoring Banner Details

Always check the banner's drop rates, featured items, and pity system. Wishing blindly can lead to wasted resources.

## Neglecting Free Resources

Fully leverage free pulls, daily login rewards, and event giveaways. --

# Community Tips and Additional Features

Engaging with the community can provide insights into event timings, pull success stories, and strategy sharing.

## Stay Updated

Follow official social media accounts for banner announcements. Join dedicated forums and Discord groups for real-time advice.

## Use External Tools

Pity trackers and wish calculators can prevent miscounts. Resource management apps help in planning your wish schedule. --

# Summary of Features, Pros, and Cons

Features: Systematic wish mechanics with pity and soft pity. Multiple wish types and banners. In-game currency management. Pros: Fair chance at obtaining high-rarity items with pity system. Does not limit your wishing; continuous access. Opportunities for free wishes through daily logins and events. Cons: Gacha randomness can lead to frustration.
