The Socioeconomic Landscape of South Carolina’s Low Country

Before the war, South Carolina’s Low Country was dominated by rice and indigo plantations, which depended heavily on enslaved labor. The book examines how this economic structure not only entrenched the system of slavery but also shaped the social hierarchies and cultural identities of the region. The author meticulously charts the transition from a rigid, slave-based economy to a more fluid social order as emancipation took hold. By analyzing census data, plantation records, and personal correspondences, the book sheds light on the lives of enslaved people beyond their forced labor.
