Overview of Services Marketing

Defining Services and Their Characteristics

Services are intangible, inseparable, variable, and perishable offerings that fulfill the needs and wants of customers. These characteristics differentiate services from physical goods, necessitating unique marketing strategies.

1. **Intangibility:** Services cannot be seen, touched, or stored, making it challenging to demonstrate value prior to purchase.
2. **Inseparability:** Production and consumption occur simultaneously, requiring close customer-provider interaction.
3. **Variability:** Service quality can vary depending on who provides them, when, and where.
4. **Perishability:** Unsold services cannot be stored for later sale, leading to challenges in demand management.

The Evolution of Services Marketing

Historically, marketing focused predominantly on tangible products. However, the rise of the service economy, driven by sectors such as healthcare, hospitality, financial services, and education, prompted the development of specialized marketing strategies tailored to services. The 4th edition of Zeithaml, Bitner, and Gremler's book captures this evolution, emphasizing the importance of managing customer relationships and service quality.

Core Frameworks in Services Marketing

The Extended Marketing Mix (7Ps)

A central concept in services marketing is the extended marketing mix, which expands the traditional 4Ps (Product, Price, Place, Promotion) to include three additional Ps: People, Processes, and Physical Evidence.

1. **Product:** The core service and supplementary services offered.
2. **Price:** Strategies considering the intangible nature and perishability of services.
3. **Place:** Distribution channels suitable for service delivery.
4. **Promotion:** Communicating service benefits and managing customer perceptions.
5. **People:** Employees and customers who influence service delivery and quality.
6. **Processes:** Procedures, mechanisms, and flow of activities that deliver the service.
7. **Physical Evidence:** Tangible cues that facilitate service evaluation.

Servqual and Service Quality Dimensions

The book emphasizes the importance of measuring and managing service quality using tools like Servqual, which assesses gaps between customer expectations and perceptions across five dimensions:

1. Reliability
2. Responsiveness
3. Assurance
4. Empathy
5. Tangibles

By understanding these gaps, firms can identify areas for improvement to enhance overall customer satisfaction.

1. Personalization of services to meet individual needs.
2. Building trust through consistent service quality.
3. Implementing loyalty programs to incentivize repeat business.

4. Engaging customers through multiple channels and touchpoints.

Service Design and Delivery

Service Blueprinting

A key tool discussed in the book is service blueprinting, which maps out the entire service process, including customer actions, visible contact employee actions, and backstage activities. This visualization helps identify potential failure points and opportunities for service innovation.

Managing Service Encounters

The quality of service encounters determines customer satisfaction and loyalty. The book highlights factors influencing these interactions, such as employee training, empowerment, and customer participation.

Marketing Strategies for Services

Segmentation, Targeting, and Positioning (STP)

Services marketers must carefully segment markets based on needs and behaviors, target specific segments, and position their offerings effectively, emphasizing intangible benefits and service differentiation.

Branding and Service Differentiation

Creating strong brands and differentiating services through unique features, customer experience, and service delivery standards are vital for competitive advantage.
