This project aims to preserve, translate, and disseminate the sacred scriptures in a manner that respects the ancient traditions of the Ethiopian Christian community while making the holy texts accessible to contemporary believers and scholars. The Ethiopian Orthodox Bible is unique not only because of its extensive canon but also because of its historical significance, linguistic nuances, and cultural context. Over the years, various initiatives have been undertaken to compile, translate, and distribute the Ethiopian Orthodox Bible, ensuring that this spiritual treasure remains vibrant and relevant in modern times.

## Historical Background of the Ethiopian Orthodox Bible

### Origins and Development

The Ethiopian Orthodox Tewahedo Church traces its origins back to the earliest days of Christianity, with traditions asserting that the Gospel was introduced to Ethiopia as early as the 4th century AD during the reign of King Ezana. The translation of the Bible into Ge'ez, the liturgical language of Ethiopia, began around the 5th or 6th century, making it one of the oldest biblical translations in the world. This translation process was driven by the desire to make the scriptures accessible to Ethiopian Christians and to preserve their faith amid regional influences. Over centuries, the Ethiopian Orthodox Bible evolved, incorporating additional texts and translations. Unlike many other Christian traditions, the Ethiopian canon includes books that are not found in the Western Christian Bible, such as Enoch and Jubilees, reflecting the church’s unique theological and doctrinal perspectives.

### Canonical Differences

The Ethiopian Orthodox canon comprises: - 39 books in the Old Testament - 1 book of Enoch (1 Enoch) - Jubilees - 1 and 2 Meqabyan (Maccabees) - 27 books in the New Testament This expanded canon underscores the church’s rich theological tradition and highlights the importance of apocryphal and pseudepigraphal texts in its liturgical life and spiritual teachings.

## The Role of the Ethiopian Orthodox Bible Project

### Preservation of Ancient Manuscripts

One of the primary goals of the Ethiopian Orthodox Bible project is to safeguard the ancient manuscripts that form the foundation of Ethiopia’s Christian heritage. Many of these manuscripts are handwritten on parchment or vellum, often dating back centuries. Preservation efforts include: - Digitization of ancient texts - Restoration and conservation of physical manuscripts - Creation of digital archives accessible to scholars worldwide

### Translation and Modernization

While Ge'ez remains the liturgical language, efforts are underway to translate the Bible into modern Ethiopian languages, such as Amharic and Oromo, to reach broader audiences. These translations aim to: - Maintain theological accuracy - Respect traditional interpretations - Facilitate understanding among contemporary believers The project also involves updating Bible study tools, commentaries, and related materials to reflect current linguistic and cultural contexts.

### Dissemination and Accessibility

Making the Ethiopian Orthodox Bible accessible to all is a central aim. Initiatives include: - Printing affordable editions for churches and individuals - Distributing digital versions and mobile applications - Establishing online platforms for study and research By

expanding access, the project seeks to deepen faith, promote biblical literacy, and foster a greater understanding of the Ethiopian Christian tradition.
